

The Herald.

Local Department.

W. W. MILLIKAN, Editor.

Thirteen Years' Practice IN CHRONIC DISEASE.

BY L. PAGIN, M. D., OF SOUTH BEND, IND.

Author of a new system of Medicine in the treatment of Chronic Diseases, and a new mode of combining Medicines. A student of Doctor Dellinbaugh.

Appointments.

For the special satisfaction of my patients and friends who have so often solicited me to visit them, I will make a tour through Indiana and Ohio, and all who wish to see me and get medicine can do so by calling at the following places. I have all kinds of medicine with me. I travel by car—call early. Consultation Free.

Washington, Kirk House, Tuesday and Wednesday, March 28th and 29th. Jamestown, Sunday & Monday, March 24th and 25th. Resevoir, Thursday March 28th. Wilmington, Friday & Saturday, March 29th and 30th.

Bounty.

The following named persons are requested to call immediately on J. A. O. Yeoman, and sign their receipts and final vouchers to the Paymaster General who pays off their claims. These must all be attended to before the 1st of April.

Bounty Claims.

The persons whose names are hereto annexed will please lose no time in calling upon Thomas D. McElwain, accompanied by two witnesses who know them to be the identical persons they represented themselves to be, that their "last step" papers may be made out, the form 5, vouchers to be signed and forwarded. Every day is precious. Come soon!

John E. Collier, James C. Collier, Wm. Millikan, Thomas Siddons, Wm. E. Water, Chas. H. Dyer, John M. Larimer, C. O. Williams, J. Thompson, L. L. Winfrey, James Priddy, John B. Keller, Theo. Howard, John B. Sims, Henry Davis, Felix Davis, Thos. Jenkins, James W. Fuller, Eder C. Allen, Harrison Williamson, A. A. Braden, A. R. Robison, Arch. Dyer, Wm. Coffey, Jas. Atherton, Albert Boner, Milton C. Elliott, James F. Matson, John Serrie, Geo. Crawford, Wm. Hammond, Wm. Parr, Julia Curran, Samuel W. Stewart.

HORSE BILLS!

Person wanting Horse Bills printed, can have them on short notice, and in the best style, by calling at the Herald Office.

Job Printing.

Having just added to the Job-printing department of the HERALD office, a lot of new styles of type, and a flat class power press, we are prepared to execute, all kinds of job printing in BETTER STYLE and on SHORTER NOTICE than any other office in Fayette County. Terms reasonable.

We are requested to announce the name of Wm. H. Blakemore, as a candidate for Assessor for Union township at the approaching April election.

The Spring term of the Common Pleas Court for this county commences on Tuesday, the 2d of April.

Eye Parvin has just received a lot of beautiful new styles of piece goods for gentlemen's wear. Call and look at them.

T. D. McElwain publishes the annual statement of the Phoenix Insurance Company, for which he is Agent at this place, in another column.

It has been very correctly remarked that during the past two or three weeks, a man who went out upon the high-ways could find an argument at every step, in favor of making turnpike roads.

We understand that a little "crimination" occurred on street last Friday night, but we were not present to note down the particulars, and so lost an opportunity for a sensational local. Next time we hope to have better luck.

See advertisement for the receipt of the Grand Army of the Republic, and the specifications in the Herald. Now is a good time to give a good job. There will be plenty of employment for men and boys in Fayette county this Summer.

G. A. R. Grades in the Grand Army of the Republic will assemble at their place of meeting every Saturday evening. By order of S. B. YEOMAN, Post Commander.

McElwain, Post Agt.

Real Estate Transfers.

The following are the transfers of real estate recorded in the Recorder's office during the past week: Sam'l H. Gadsbury to Murray Wilson, 58 acres, in Union tp.—\$450. Chas. E. Groves to Murray Wilson, 58 acres, in Perry tp.—\$400. Elizabeth Kent to Sam'l Kent, lot No. 3, Waterloo—\$50. Moab Henkle to Sam'l Cissna, lot in Washington—\$1,000. Wm. Large to Jackson Popejoy, 15 acres in Marion tp.—\$1,300. Wm. Harrison to Andrew Shivers, 8 acres in Madison tp.—\$4,912.50. Andrew Shivers to Monroe Bennett, 1 acre in Madison tp.—\$100. Sarah A. Price to John Blain, house and lot in Washington—\$1,260. F. L. Nitterhouse to Charles J. Bell, house and lot in Washington—\$1,800. Wm. Darnell to Elias Simons, 11 acres in Green tp.—\$400. Sam'l K. Corbit to Sam'l M. Corbit gift deed, in Jefferson tp.—gift.

Commissioner's Court.

The Commissioners of this Court were in session five days last week, all present, and transacted a large amount of business, the greater part being turnpike business. They ordered, in accordance with the petitions of the people along the lines of the several roads, the improvement of six new turnpikes, the mending of five, of which, it will be seen by our advertising columns, are advertised for contract. The Jamestown road, though not advertised for contract, will be offered soon. In addition to these roads, Viewers were appointed on two more roads. The Commissioners adjourned on Friday afternoon last, to meet again to-morrow, (Friday).

Mud Blockade.

All the roads leading into town are at present completely mud-bound, and almost impassable, and the condition of our streets is little better. It would require the use of adjectives somewhat more emphatic than our moral and religious readers would approve of, to fully express the horrible, muddy state of affairs.

There were heavy snow storms at the West and North-west on Monday last. At Indianapolis it is reported that in two hours snow fell to the depth of seven inches.

It did not snow here, but we had a drizzly day, and a steady but moderate fall of rain nearly all Monday night. Cloudy and drizzling on Tuesday. Weather gloomy.

New Government Revenue Collector.

Col. Wm. O. Collins, of Hillsborough, has been appointed and confirmed by the U. S. Senate, Collector of Government Revenue in this Congressional District. Col. Collins served as Colonel of the 11th Ohio Cavalry in the late war against the rebels. His service was in the West, among the Indians.

Coal Oil continues to float up upon the surface of the water from the spring on Mr. Azos Goldsberry's farm, near Staunton, in this county, which we noticed a couple of three weeks since. It is supposed that a barrel and a half of coal oil escapes in this way every 24 hours.

Nelson Spears and Sam. Reed, (gentlemen of color,) got into a difficulty, somewhere in the Northern part of town, last Tuesday evening, in which Spears shot Reed in the thigh, making a pretty severe wound. Nelson then made himself "scarce," and has not been seen since.

The man who is not in favor of turnpikes, was in town last Saturday. When we saw him, he was splashing across the street, about ankle-deep in his element, with a dry cross walk within a few feet of him all the way. But he wasn't afraid of a little mud. He was used to it.

Mr. Peter Wendel, an old and highly respected citizen of this place died at his residence, on Tuesday evening last. He was 63 years of age. His funeral was attended yesterday afternoon at 2 o'clock.

DEGREE TEMPLE.

The charter members of Ray of Hope Lodge, No. 223, I. O. G. T., of our town, organized a Degree Temple on last Monday evening, and elected officers for the ensuing six months.

A good many people waded in to town last Saturday, and business seemed to be pretty lively, considering the awful condition of the roads.

General Specifications.

For the improvement of the Bloomingburg Road, leading from the Columbus Road at the farm of John W. Gillespie, through the town of Bloomingburg, to the West-end county line, at the farm of Dr. Paulin, and also for the improvement of the Prairie Road, leading from the Madison county line, at the farm of Coleman Hays, to the Jeffersonville road, at the farm of Thomas Kirk, said roads having been surveyed and the improvement ordered by the Commissioners of Fayette county, Ohio, under Act of April 5th, 1866, of the General Assembly of the State of Ohio.

1. The foundation of the Road shall be 24 feet wide, with a ditch on each side of not less than 6 feet wide and a surface grade of 18 feet wide along the middle of the track.

2. The form of the surface grade shall be oval, commencing at the distance of 3 feet from the inner edge of the ditch on each side, and gradually rising to the height of one foot in the middle.

3. A "FILL" in said road is the amount of earth necessary for the foundation of the road in addition to the surface grade.

4. A "Cut" is the amount of earth to be removed from the surface of the road.

5. The height or depth of a fill or cut shall be ascertained by perpendicular measurement from the surface of the ground in the center of the road, before the work was commenced, to the top of the grade or foundation when completed.

6. All cuts and fills, when completed and ready for the gravel, shall present the same general form as the balance of the road, viz: The foundation shall be 24 feet wide between the ditches, with an oval surface grade of 18 feet wide and one foot high in the middle, along the center of the track and the sides or banks of all the ditches and along the cuts and fills, to be trimmed at an angle of 45 degrees.

7. The ascent or descent of the grade on any portion of the road, when completed, shall not exceed one foot in fifteen, and all standing timber, or stumps within an area of 25 feet from the center of the road shall be cut off on a level with the grade, or grubbed out, and those standing in the ditches shall be grubbed out or dug out.

8. The ditches on each side of the road shall not be less than 6 feet wide at the top, and trimmed at the sides at an angle of 45 degrees, and of an average depth of not less than 12 inches, and constructed in such a manner and provided with sufficient outlets to carry off the water from both ditches and culverts.

9. The gravel to be put on the road shall be of good quality, and clear of dirt or soil, and shall be evenly laid on, 13 feet wide, 12 inches deep at the sides and 15 inches in the center of the road. All large stones to be put in the bottom.

10. No gravel to be put on the road until the grade is first examined and approved by the Engineer. And it is expressly understood that the Engineer has the right to change or alter the work on any portion of the road, and to add or deduct the price of such alteration in accordance with contract price, and the work performed on said road is subject to this instruction and supervision.

11. No Bridge shall be less than 16 feet wide, with wings extending to the edges of the ditches on each side, with 24 inch plank abutments and siding for the wings.

The caps of Bents to be 8 by 12 inches. Posts 8 by 8 inches. Braces 4 by 4 inches, and mud-sills 8 by 10 inches, and 7 sleepers 4 by 12 inches, and covered with 24 inch plank, with side guards 3 feet high on each side of bridge and wings.

The side guards to be made of 4 inch scantling, halved on the outside sleepers and spiked, with three boards 6 inches wide nailed on the inside, one on the outside close to the flooring, and one on the top as a cap.

The stanchions or posts on each side of the wings to be 6 by 7 inches and high enough to receive the side guards, and to have cross ties tenoned and pinned into the posts extending across or into the levee. The plank floor of the bridge to extend two inches on each side beyond the scantling of the side guards.

12. The abutments of all culverts shall be 24 feet long at the top, and sloping down at each end at an angle of 45 degrees, to be of good burr or white-oak, hewn on 3 sides and built to the average height of the grade. When not more than 2 feet 6 inches wide they shall be covered with 24 inch plank well spiked across the abutments, & when the width is over 2 feet 6 inches the plank shall be laid lengthwise on sleepers, boxed and notched on the abutments, and covered with gravel to the extent of half a rod on each side of the abutments, the whole width of the road. The timbers in all culverts and bridges to be of good sound burr or white-oak.

13. All said roads shall be ditched, graveled, and graded in accordance with these specifications.

14. The roads shall be graded throughout in such a manner that the top or surface of the foundation on each side of the road shall be of equal height.

15. All work on said roads to be completed by the 1st of December, 1867, and to be paid for in Fayette County Bonds, bearing interest from their respective dates.

Said Bonds shall be in ten series. The first series payable March 1st, 1869; 2d, Sep. 1st, 1869; 3d, March 1st, 1870. And so on, the last series payable Sep. 1st, 1873. The payment for said work may be made as the work progresses, if in the opinion of the Engineer it will be safe to do so; and in full for each mile when completed. And it shall be the duty of the Engineer to furnish the Contractor with a Certificate,

stating the amount of work completed and the contract price for the same, taking the average price, and according to work done. Upon presenting said certificate to the County Commissioners at their next monthly session, they shall issue such County Bonds, in due proportion of each series, to the amount of such certificate, if satisfied it is according to contract. Such Bonds shall be dated on the first day of the month in which they are issued.

J. M. EDWARDS, Engineer of Bloomingburg Road. JAMES PURCELL, Engineer of Prairie Road. March 14th, 1867.

LETTER LIST.

The following are the names of persons for whom letters remain uncalled for in the Washington Post Office:

Best qualities 17 @ 17½¢  
Medium 16 @ 16½¢  
Average 15 @ 15½¢  
Some very fine Ohio averaged 17¢. Over 3,000 head were sold at Hudson City.

SHEEP.—The market was quiet to-day at 8¢@10¢. A few prime brought 10½¢. HOGS.—Twenty one cents in to-day. The market is slow at 75¢@85¢.

Total receipts for the week—Beef Cattle, 5,000; Sheep, 19,000; Hogs, 16,800.

A CARD.

WASHINGTON, C. H. O., Feb. 23, 1867.

L. C. KANNEY, Esq.—Sir:—During the month of December, 1866, I got my feet very severely frozen, so badly, indeed, that some of my toes came off, and I was unable, for about two months, to wear my boots. During this time, I was using the very best remedies I could procure, but without relief. By the advice of a friend, I tried a box of your "Cure," and am glad to certify to you that it cured my feet at once. By the third application my feet seemed to be entirely well.

I hope by this, not only to aid you, but to relieve others similarly affected. Yours Respectfully, Jos. W. ROSE.

I used the above article for a frost-bitten foot and found it a good article. JAMES PENNELL.

Feb. 23, 1867. To be found at W. A. Harlow's Drug Store, in Washington, only. Feb. 23, 1867.

House and Lot for Sale.

A HOUSE and one or two acres of ground near town. A part of the land is well adapted to making brick or tile, both of which are in great demand. Also a few new building lots for sale or lease.

H. P. CHERRY.
